cprettyman@hgl.com

Business size: Small

For more information on ordering go to the following website: <https://www.gsa.gov/schedules>.

Price list current as of Modification #PA-0010 effective April 18, 2023

Prices Shown Herein are Net (discount deducted)

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SINs	SIN Title
562910REM	Remediation and Reclamation Services
541620	Environmental Consulting Services
541370GIS	Geographic Information Systems (GIS) Services
54151S	Information Technology Professional Services
OLM	Order-Level Materials (OLM's)

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.
N/A

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility, and education for those types of employees or subcontractors who will perform services shall be provided. See Page 4 for Labor Rates and Page 6 for Labor category descriptions.

2. Maximum order: \$1,000,000

3. Minimum order: \$100

4. Geographic coverage (delivery area). Domestic and Worldwide

5. Point(s) of production (city, county, and State or foreign country). Not Applicable

6. Discount from list prices or statement of net price. Government Net Prices

7. Quantity discounts. None

8. Prompt payment terms. 1% Net 15 days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items (list items by country of origin). Not Applicable

10a. Time of delivery. (Contractor insert number of days.) To Be Determined at the Task Order level

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. To Be Determined at the Task Order level

- 10c. Overnight and 2-day delivery. Not Applicable
- 10d. Urgent Requirements. To Be Determined at the Task Order level
- 11. F.O.B. point(s). Destination
- 12a. Ordering address(es). Contractor's Address
- 12b. Ordering procedures: See Federal Acquisition Regulation (FAR) 8.405-3.
- 13. Payment address(es). Contractor's Address
- 14. Warranty provision. Not Applicable
- 15. Export packing charges, if applicable. Not Applicable
- 16. Terms and conditions of rental, maintenance, and repair (if applicable). Not Applicable
- 17. Terms and conditions of installation (if applicable). Not Applicable
- 18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). Not Applicable
- 18b. Terms and conditions for any other services (if applicable). Not Applicable
- 19. List of service and distribution points (if applicable). Not Applicable
- 20. List of participating dealers (if applicable). Not Applicable
- 21. Preventive maintenance (if applicable). Not Applicable
- 22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). Not Applicable
- 22b. If applicable, indicate that Section 508 compliance information is available for the information and communications technology (ICT) products and services and show where full details can be found (e.g. contractor's website or other location.) ICT accessibility standards can be found at: <https://www.Section508.gov/>.
Not Applicable
- 23. Unique Entity Identifier (UEI) number. S7Q4GKNGGA81
- 24. Notification regarding registration in System for Award Management (SAM) database. Contractor registered and active in SAM.

Service Contract Labor Standards Matrix:

SCLS Matrix		
SCLS Eligible Contract Labor Category/Fixed Price Service	SCLS Equivalent Code Title	WD Number
Clerical/Word Processor	01612-Word Processor II	15-4281
Engineering Technician - Mid	30082-Engineering Technician II	15-4281
Engineering Technician - Junior	30081- Engineering Technician I	15-4281
Plant Operator - Senior	25210-Water Treatment Plant Operator	15-4281
Plant Operator - Mid	25210-Water Treatment Plant Operator	15-4281
Plant Operator - Junior	25210-Water Treatment Plant Operator	15-4281

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).

PROFESSIONAL LABOR CATEGORIES and QUALIFICATIONS

Labor Category Title	Functional Responsibility	Minimum Education / Years	Minimum / General Experience
Program Manager	Responsible for the overall management of tasks performed under this contract. Provides management oversight to multiple projects. Primary point of contact to customers for contract issues. Ensures resources are provided and technical plan is developed to meet the objectives of the action. Oversees Quality Control. Develops subcontracting teams. Monitors project performance for compliance to schedules, cost, quality, and other contract terms, and conditions.	Bachelors (Engineering, Science, or Other Relevant Discipline) / 14 Masters (Engineering, Science, or Other Relevant Discipline) / 12 Doctorate (Engineering, Science, or Other Relevant Discipline) / 10	12 years of experience in managing and performing a wide variety of programs/projects.
Project Manager	Manages projects with one or more tasks. Ability to determine resource requirements and prepare work breakdown structures and cost estimates. Determines project schedules and establishes metrics for work performance. Manages subcontractors. Ensures compliance to schedules, cost, quality, and other contract terms and conditions. Capable of directing.	Bachelors (Engineering, Science, or Other Relevant Discipline) / 8 Masters (Engineering, Science, or Other Relevant Discipline) / 6 Doctorate (Engineering, Science, or Other Relevant Discipline) / 4	8 years of experience has managed projects and tasks.
Principal Engineer/Senior Technical Consultant	Provides senior technical expertise and/or management oversight at a high level in their recognized engineering discipline. Capable of directing multiple project teams from initial design through completion. Oversees quality control in meeting performance-based metrics.	Bachelors (Engineering Discipline) / 16 Masters (Engineering Discipline) / 14 Doctorate (Engineering Discipline) / 12	12 years of experience in performing and/or managing a wide variety of programs/ projects. Registered Professional Engineer in one or more states.
Senior Engineer	Responsible for applying advanced technical skills to the analysis of processes and problems. Ability to assess requirements and design sophisticated technical applications/solutions. Well-developed diagnostic skills for analyzing problems and developing effective corrective actions.	Bachelors (Engineering Discipline) / 10 Masters (Engineering Discipline) / 8 Doctorate (Engineering Discipline) / 6	8 years of experience in the analysis of systems, procedures, and processes. Registered Professional Engineer in one or more states.

PROFESSIONAL LABOR CATEGORIES and QUALIFICATIONS (continued)

Labor Category Title	Functional Responsibility	Minimum Education / Years	Minimum / General Experience
Project Engineer	Responsible for applying technical skills to the analysis of processes and problems. Ability to assess requirements and design routine technical applications/solutions.	Bachelors (Engineering Discipline) / 4 Masters (Engineering Discipline) / 2 Doctorate (Engineering Discipline) / 0	4 years of experience in the analysis of systems, procedures, and processes.
Staff Engineer	Responsible for applying technical skills to the analysis of processes and problems. Assists in developing requirements and designing routine technical applications/solutions.	Bachelors (Engineering Discipline) / 0	0 years of experience in the analysis of systems, procedures, and processes.
Principal Scientist/Senior Technical Consultant	Provides technical expertise and/or management oversight at a high level in their recognized subject area. Capable of directing multiple project teams on complex scientific efforts. Oversees quality control in meeting performance-based metrics.	Bachelors (Science or Mathematics Discipline) / 16 Masters (Science or Mathematics Discipline) / 14 Doctorate (Science or Mathematics Discipline) / 12	12 years of experience in performing and/or managing a wide variety of science-based programs/ projects. For appropriate disciplines, a Registered/Certified Professional in one or more states.
Senior Scientist	Responsible for applying advanced technical skills to the analysis of scientific processes and problems. Ability to assess requirements and develop sophisticated technical applications/solutions. Well-developed diagnostic skills for analyzing problems and developing effective corrective actions.	Bachelors (Science or Mathematics Discipline) / 10 Masters (Science or Mathematics Discipline) / 8 Doctorate (Science or Mathematics Discipline) / 6	8 years of experience using skills in environmental science areas. For appropriate disciplines, a Registered/Certified Professional in one or more states.
Project Scientist	Responsible for applying technical skills to the analysis of scientific processes and problems. Ability to assess requirements and develop technical applications/solutions.	Bachelors (Science or Mathematics Discipline) / 4 Masters (Science or Mathematics Discipline) / 2 Doctorate (Science or Mathematics Discipline) / 0	4 years of experience using skills in environmental areas.
Staff Scientist	Responsible for applying technical skills to the analysis of scientific processes and problems. Assists in developing requirements and technical applications/solutions.	Bachelors (Science or Mathematics Discipline) / 0	0 years of experience in environmental areas.

PROFESSIONAL LABOR CATEGORIES and QUALIFICATIONS (continued)

Labor Category Title	Functional Responsibility	Minimum Education / Years	Minimum / General Experience
Senior Technical Research/Analyst	Responsible for applying advanced technical skills when conducting investigations and technical research. Ability to assess requirements and develop sophisticated technical applications/ solutions. Well-developed diagnostic skills for analyzing problems and developing corrective actions. Directs a project team on investigation and technical research efforts.	Bachelors / 10 Masters / 8 Doctorate / 6	8 years of experience in performing and/or managing a wide variety of investigation and/or technical research programs/projects.
Technical Research/Analyst	Responsible for applying technical skills when performing investigations and/or technical research.	Bachelors / 0	0 years of experience in performing investigations and/or technical research.
Senior Toxicologist/CIH	Responsible for performance of human health and ecological risk assessments. Develop, implement, and oversee all safety and health related aspects of the program/project. Develops human health and ecological receptor pathway analyses and risk assessment profiles and calculates exposure protocols. Ensures that Site Safety and Health Plans, Field Sampling Plans, incorporated risk profiles, and operational protocols comply with all relevant regulations and guidance.	Bachelors (Science and ABIH Certification) / 4 Masters (Science and ABIH Certification) / 2 Doctorate (Science and ABIH Certification) / 0	4 years of experience working in the environmental industry.
Industrial Hygienist	Assists in developing, implementing, and overseeing all safety and health related aspects of the project.	Bachelors (Science) / 1	1 year working experience in the environmental industry.
Community Relations Specialist	Responsible for applying public relations/mediation skills to community/client interface problems. Ability to assess requirements and develop technical applications/solutions. Ability to implement public involvement plans and community relations plans and other methods to ensure the public receives the best information.	Bachelors / 3	3 years of experience in providing public and community relations support services.
GIS Specialist	Applies GIS/CADD/Graphics applications and methodologies and operates standard equipment.	High School or GED / 3 Bachelors / 0	3 years of experience in GIS/CADD/ Graphics applications.

PROFESSIONAL LABOR CATEGORIES and QUALIFICATIONS (continued)

Labor Category Title	Functional Responsibility	Minimum Education / Years	Minimum / General Experience
Database Management Administrator	Responsible for applying data management skills as directed.	Bachelors / 2 Masters / 0	2 years of experience in performing data management tasks. Fundamental database training.
CADD Technician	Prepare CADD drawings to support architectural and engineering projects for various environmental contracts. Layout and design for site plans, drawing as-builts, electrical and piping diagrams, layout of project features, earthwork development showing cut and fill requirements, work using topographic data and digitized profiles.	Associates (CADD or Relevant Discipline) / 3 Bachelors (CADD/GIS or Relevant Discipline) / 0	3 years of relevant experience.
Clerical/Word Processor	Implements word processing Quality Control procedures. Applies standardized procedures and/or style guide when preparing products.	High School or GED / 3	3 years of experience and a qualified user of standard word processing applications.
Mid-Level Engineering Technician	Performs assignments that are not completely standardized or prescribed. Selects or adapts standard procedures or equipment using fully applicable precedents. Receives initial instructions, equipment requirements, and advice from supervisor or engineer as needed; performs recurring work independently; work is reviewed for technical adequacy or conformity with instructions.	High School or GED / 3	3 years directly related experience.
Junior Engineering Technician	Performs simple or routine tasks or tests, operates and adjusts simple test equipment, and records test data. Gathers and maintains specified records of engineering data such as tests, drawings, etc.; performs computations by substituting numbers in specified formulas; plots data and draws simple curves and graphs.	High School or GED / 0	0 years of experience.

PROFESSIONAL LABOR CATEGORIES and QUALIFICATIONS (continued)

Labor Category Title	Functional Responsibility	Minimum Education / Years	Minimum / General Experience
Senior Plant Operator	Operates a remediation system, such as a pump and treat water treatment system, in support of remediation activities. Prepares reports and submits to regulatory agencies as required. Orders plant chemicals, equipment, and materials. Optimizes plant processes and computer controls to achieve increased plant on-line efficiency. Maintains and updates process operational data; collects plant process samples and maintains data. Performs remote monitoring of plant operation and responds to plant process alarms during unstaffed hours. Supervises, schedules, and manages site support vendors and subcontractors. May be responsible for junior operator training.	High School or GED / 7	7 years of experience. Significant experience as a plant operator. Registration or certification as required.
Mid-Level Plant Operator	Operates a remediation system, such as a pump and treat water treatment system, in support of remediation activities. Contributes to reports. Orders plant chemicals, equipment, and materials. Maintains and updates process operational data, collects plant process samples, and maintains data. May perform remote monitoring of plant operation and respond to plant process alarms during unstaffed hours. Works with site support vendors and subcontractors.	High School or GED / 3	3 years of experience. Experienced as an operator/user of practices, methodologies, and/or specialized equipment.
Junior Plant Operator	Assists in the operation of a remediation system, such as a pump and treat water treatment system, in support of remediation activities. Assists with report preparation. Assists with sample collection and data recording.	High School or GED / 0	0 years of experience. Entry level experience as an operator/user of practices, methodologies, and/or specialized equipment.
Senior Site Superintendent (Site Project Manager)	Responsible for all site operations and for supervision of the site foreman, craft labor, equipment, and subcontractor / vendor field activities. Responsible for leading on-site activities; managing on-site personnel and subcontractors; managing and controlling construction schedules and budgets; and effectively and proactively resolving quality, cost, and schedule issues.	High School / 12 Bachelors / 8	8 years of experience, including experience in schedule management, and with the Quality Control System for managing quality control requirements and submittals.

PROFESSIONAL LABOR CATEGORIES and QUALIFICATIONS (continued)

Labor Category Title	Functional Responsibility	Minimum Education / Years	Minimum / General Experience
Site Superintendent	Responsible for all site operations and for supervision of the site foreman, craft labor, equipment, and subcontractor / vendor field activities. Responsible for leading on-site activities; managing on-site personnel and subcontractors; managing and controlling construction schedules and budgets; and effectively and proactively resolving quality, cost and schedule issues.	High School or GED / 3	3 years of experience, including experience in schedule management, and with the Quality Control System for managing quality control requirements and submittals.
Corporate Quality Control Manager	Responsible for developing, maintaining, and ensuring implementation of the corporate quality program. This responsibility includes oversight of activities, periodic reviews of the processes implemented, evaluation of any recommendations made by the project team over the course of the program regarding use of these processes, and continuous improvement evaluations of the quality program. Also, responsible for providing support to the project teams and the Program Manager in ensuring that the quality of products and services provided to the client is in accordance with the provisions of the contract, project plans, drawings, specifications, performance work statements, subcontracts, deliverables, other project requirements, and general contract compliance.	Bachelors (Science or Engineering Discipline) / 14 Masters (Science or Engineering Discipline) / 12 Doctorate (Science or Engineering Discipline) / 10	12 years of experience in the management and development of quality control processes and procedures.
Quality Control Manager	Responsible for generating and managing compliance with the Quality Assurance Project Plan (QAPP) and Field Sampling Plan (FSP) for projects. Has the authority to act in all QC matters for the project.	Bachelors (Science or Engineering Discipline) / 8 Masters (Science or Engineering Discipline) / 6	8 years of experience in the management and implementation of quality control processes and procedures.
Accounting Manager	Manages and oversees the daily operations of the accounting department. Establishes financial status by developing and implementing systems for collecting, analyzing, verifying, and reporting financial information. Produces financial reports or statements. Establishes and enforces proper accounting methods, policies, and principles. Manages staff.	Bachelors (Accounting or Finance Discipline) / 10 Masters (Accounting or Finance Discipline) / 8	10 years of experience in accounting and/or finance.

PROFESSIONAL LABOR CATEGORIES and QUALIFICATIONS (continued)

Labor Category Title	Functional Responsibility	Minimum Education / Years	Minimum / General Experience
Senior Contracts Manager	Responsible for proposal/solicitation preparation and cost/price analysis; contract negotiation, dispute resolution, administration, audits, and closeout; preparation/administration of subcontracts; review of partnership/teaming arrangements; program control/ tracking; and COI, insurance bonding, and risk management. Ensures compliance with FAR/DFAR and all Government regulations pertaining to government-furnished property (GFP), government-furnished equipment (GFE), contractor acquired property (CAP), and intellectual property/ data rights for all contracts.	Bachelors (Certified Professional Contracts Manager through the National Contracts Management Association) / 15 Masters (requirements as mentioned above) / 12 Doctorate (requirements as mentioned above) / 10	15 years of experience in the management of government (federal and/or state) contracts.
Regulatory Specialist	Responsible for assuring regulatory compliance is achieved for all environmental related activities on the project. Must have professional knowledge of, thorough understanding of, and applied practical experience of environmental regulations with respect to RCRA, CERCLA, the Hazardous Materials Conservation Act, the Superfund Amendments & Reauthorization Act (SARA), the Toxic Substances Control Act (TSCA), the Clean Air Act, the Clean Water Act, etc., and implementing federal, state and local regulations and their application to the projects. Responsible for the accumulation, manifesting, and shipment of hazardous, toxic, and if required by the project, radiological wastes.	Bachelors (Science or Engineering Discipline) / 8 Masters (Science or Engineering Discipline) / 6 Doctorate (Science or Engineering Discipline) / 4	8 years of experience in environmental regulations and their application. Professional registration in their respective field of expertise (e.g., Certified Hazardous Materials Manager (CHMM); Registered Environmental Manager (REM), or equivalent).
